## Self-apposing coronary stent International Workshop

Medizinische Klinik I

Chefarzt Prof. Dr. med. A. May

October 17th, 2018 | 09:30 – 14:00

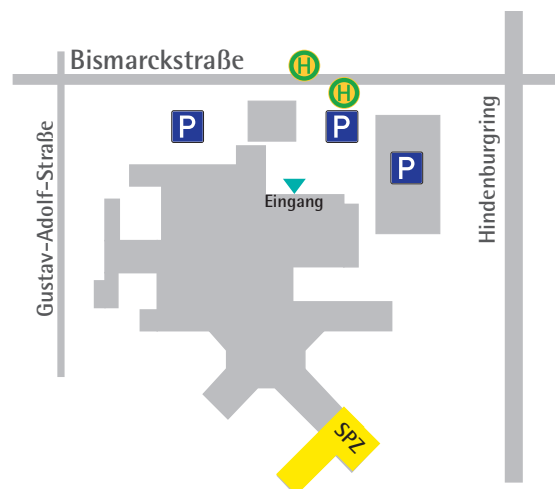

## Organization

Klinikum Memmingen  
Medizinische Klinik I  
Bismarckstraße 23  
87700 Memmingen

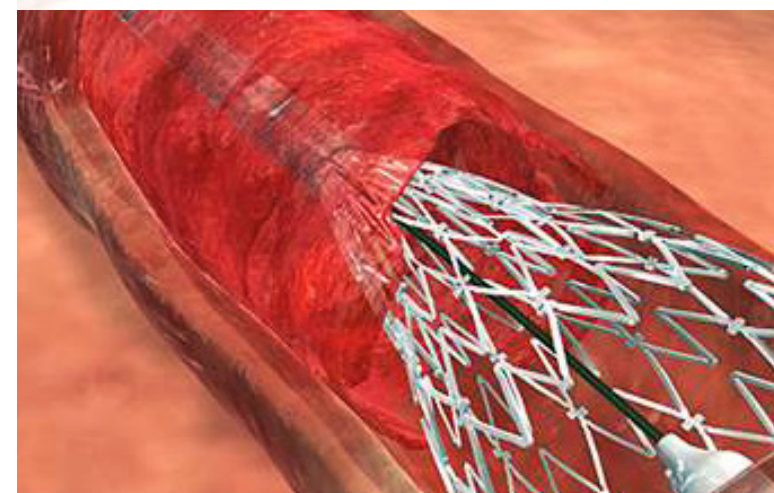

In cooperation with STENTYS

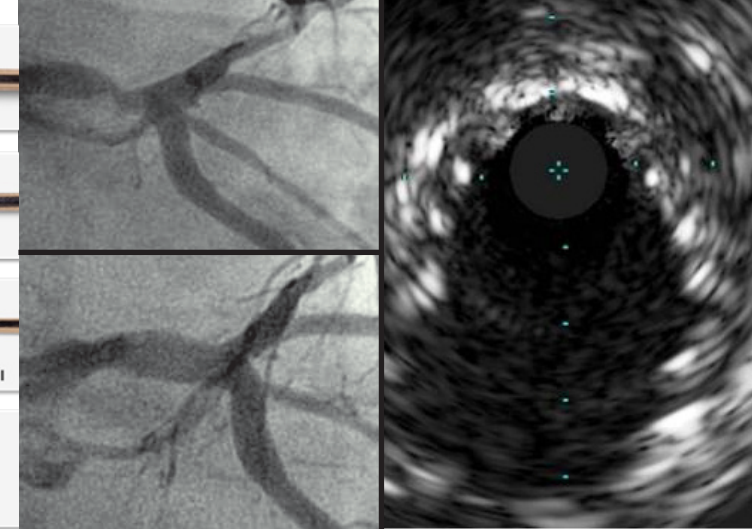

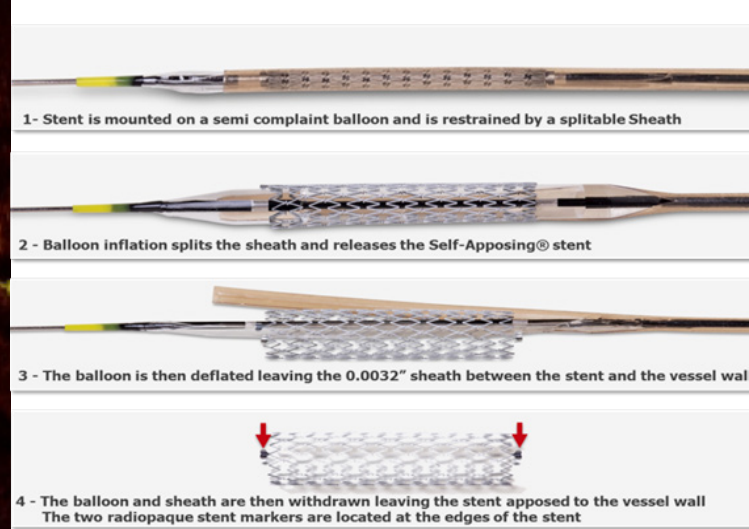

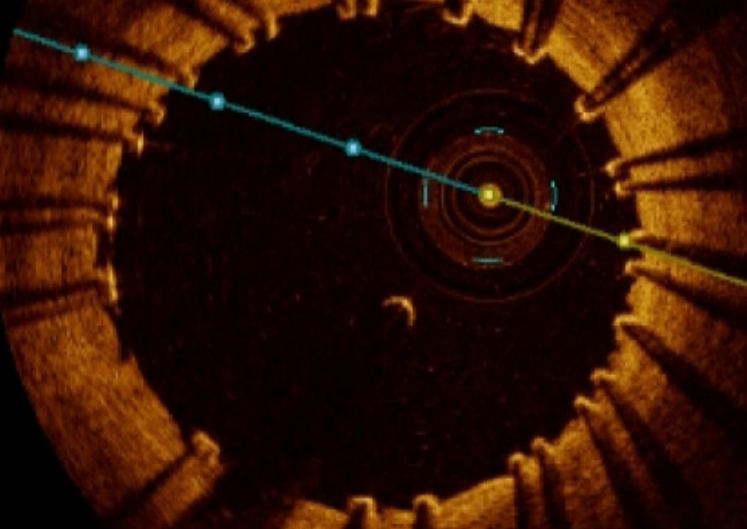

## Place

Klinikum Memmingen  
Sozialpädiatrisches Zentrum (SPZ) 

Editor: Klinikum Memmingen.  
Status: June 2018, Printing errors reserved.

## Workshop

Dear colleagues,

the self-apposing coronary stent has some advantages in specific coronary settings, e.g. in dilated coronaries, in bifurcation lesions or/and in degenerated venous bypass grafts.

An adequate application requires a specific handling and some experience with these stents.

This workshop focuses on the indications and limitations of this technology by discussion in a small group, hands-on training and two live cases in our catheterization lab.

Looking forward to your participation.

Yours sincerely,

**Dr. med. Marcus Siry**  
Oberarzt Medizinische Klinik I  
Klinikum Memmingen

**Prof. Dr. med. Andreas May**  
Chefarzt Medizinische Klinik I  
Klinikum Memmingen
